

**NEW!**

# MULTI PURPOSE DRILL BIT

**METAL**

**WOOD**

**TILE**

**DIAGER**  
INNOVATION

- CARBIDE TIP 118 ° WITH 4 SHARPENED EDGES
- SELF CENTERING POINT for an easier and faster penetration.

- OPTIMIZED "S" GROUND FLUTE for a better clearance and dust removal (metal, concrete, wood).
- SPECIAL THIN LAND to reduce friction and avoid any overheating's risk; perfect for energy saving on cordless tools.

**PERFORMANT**

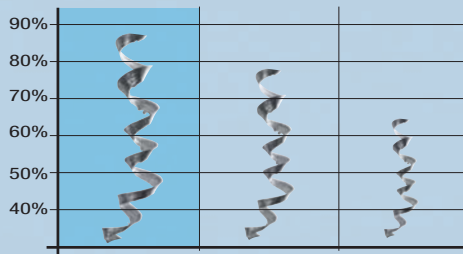

Easy drilling into hard wood and materials, as glazed surfaces and thick slates.

**RESISTANT**

Drills without any problem in "sandwich pannels".

**ACCURATE**

Clean and perfect holes without chipping.

Multipurpose drill bit ref.215    Universal drill bit ref.254    Universal drill bit (competition)

### TESTS RESULTS :

Test made by Diager on our electronic benching test in oak wood (50 mm thick) with a speed of 3 000 rpm.

*Advices :* for the best results : start drilling through the softest to the hardest material by using rotation only and hammering effect for concrete. Appropriate use will increase its life time.

## Ref.215

Available range :  
Ø mm : 5-6-8-10-12  
Ø inches : 3/16-15/64-5/16  
25/64-15/32"

Packaging :  
Individual sleeve-pack
