### HELICAL WORKING HEAD

4 UNBLOCKING CUTTING EDGES

HELICAL WORKING PROFIL

#### EFFORTLESS DRILLING

Due to its helical head, the pointed chisel penetrates and explodes easily more materials. The user's efforts are minimised in comparison to a classic head form. User comfort is improved.

#### ANTI-LOCK

The new helical working head works in half rotation with constante pressure on its 4 cutting edges. Due to its guide and specific geometry which air and dust removal during drilling, it doesn't lock into materials.

#### 100% POWERFULL

High temperature heat treatment under controlled atmospheric conditions provides maximum strength which concentrates all the hammer power for a real chiseling performance.

EFFORTLESS BREAKING

ANTI-LOCK
