

MULTI-STEP DRILL

Only one tool to drill from 9 to 14 different diameters

HSS TIN QUALITY

Spiral flutes :

- Easier cutting's removal.
- Smoother and more linear cut than straight flutes.
- Starts without shocks.

TIN coating :

- Allows to work in different types of steel, aluminium, stainless steel as well as plastic.
- Tool's hardness increased.
- Easier cutting's removal avoids an amalgam on cutting ribs and non exact drill holes.
- Avoids a premature wear of the tool and ensures a durable precision of drilled diameters.

Ref. 503C

Available range :

- # 500B : Multi-steps drill HSS TIN diam. 4-12 mm / 1 mm (9 diameters)
- # 501B : Multi-steps drill HSS TIN diam. 4-20 mm / 2 mm (9 diameters)
- # 502B : Multi-steps drill HSS TIN diam. 4-30 mm / 2 mm (14 diameters)
- # 503C : Set of 3 multi-steps drills HSS TIN diam. 4-12 / 4-20 / 4-30 mm
